

# CODE OF ETHICS

## For Recreation Vehicle Owners

1. I recognize that everyone will judge all recreation vehicle owners by my own actions.

### When parking, I will....

2. Dispose of sewage in recommended places only, such as approved sanitary dumping stations, and not throw plastic bags into toilets or garbage pits.
3. Discharge my kitchen sink and shower waste water only in designated and approved places, and watch my drain pail to see that it does not overflow.
4. Not pollute streams, lakes and other water supplies.
5. Use extreme caution with fire, leave no campfire untended, and put out my campfire before leaving it.
6. Always thoroughly extinguish matches, cigarettes, cigars or pipe heels before discarding. Not smoke when walking or riding through forests or parks, unless regulations specifically allow otherwise.
7. In campgrounds, I will place all garbage and other refuse in the receptacles provided, leaving no bottles or broken glass.
8. Do not damage trees, shrubs or other natural beauty.
9. Leave my campsite as clean or cleaner than I found it.
10. Set my recreation vehicle so that I do not interfere with others.
11. Keep fire away from my LP gas bottles.
12. Ask permission to park on private property when no other facilities are available.
13. Comply with all rules of forests and parks where I am staying.
14. Encourage my neighbors in part to follow this code of ethics.

### On the Highway I will....

15. Pull off two-lane highways periodically, if I see a string of cars behind me.
16. Not be a litterbug.
17. Use my ashtray and not toss flammable material from car windows.
18. Drive in the right lane except when passing, and allow extra room for passing.
19. Comply with and study all traffic regulations.
20. Watch my speed.
21. Make every effort to prevent swaying by proper driving, suitable weight distribution in the recreational vehicle and automobile, and use an equalizing hitch when towing a travel trailer.
22. Check lights, directional signals, and wheel lugs daily.
23. Carry sufficient insurance to protect others in case of accident.

### About my travel trailer and car, I will...

24. Be sure my car has adequate power to pull my travel trailer.
25. Check car and travel trailer brakes frequently.
26. Properly secure my LP gas bottles.
27. Use suitable rear view mirrors for safety and compliance with the law.
28. Grease wheel bearings and springs of my travel trailer periodically.
29. Attach my safety breakaway chain in a sturdy manner.
